Rogers and Callcott's Training Facility
located at 426 Fairforest Way, Greenville, SC

2012 TRAINING SCHEDULE REGULATORY ENVIRONMENTAL & SAFETY COMPLIANCE

OSHA Safety & Health Standards for General Industry

10 Hours

The *General Duty Clause* of the Occupational Safety & Health Act of 1970 required employers to furnish a place of employment free from recognized hazards, and comply with occupational safety and health standards promulgated under the Act. This 10 hour program will provide an overview of OSHA's general industry standards and the requirements of the more frequently referenced standards.

DOT—Hazardous Materials Transportation

8 Hours

Designed to satisfy the DOT requirements for employees involved in the shipping, receiving or transporting of hazardous materials as contained in Subpart H of 49 CFR 172. The training includes: general awareness/familiarization, function specific, safety and security responsibilities. Topics covered include: hazardous material tables, shipping papers, marking and labeling, placarding, packaging, emergency information and security.

DOT – Hazardous Materials Transportation – 3 Year Refresher

4 Hours

Designed to meet the recurrent training requirements found in 49 CFR 172.704. Training includes general awareness/familiarization, safety, security, and function specific responsibilities. Topics include Hazmat tables, labeling, packaging, placarding, documentation and emergency response.

Wastewater Review/Biological or Physical Chemical (Core Competency)

6 Hours

These courses are designed to comply with the continuing education requirements for renewal of biological or physical/chemical wastewater certification. Specifically, the topics covered during this training will satisfy the requirement for 6 hours of training in the area of core competency. Topics include operations, troubleshooting, process control, and laboratory.

RCRA Hazardous Waste Management Annual Refresher

4 Hours

Meets annual training requirements found in 40 CFR 265.16. Topics include waste identification, on-site management, shipping, emergencies and releases, and reporting.

RCRA and DOT Annual Update & Refresher

8 Hours

Course will meet the requirements for annual RCRA training found in 40 CFR 265.16 and the recurrent training required every 3 years for DOT found in 49 CFR 172.704. Topics include hazardous waste management and hazardous waste shipment requirements.

HAZWOPER Annual Refresher

8 Hours

Designed to satisfy the requirement for employees trained under 29 CFR 120 paragraph (q) to receive annual refresher training. Topics include review of the standard, PPE, hazard recognition and assessment, instrumentation and incident management.
